

Down District Council and PLM Promotions present

FESTIVAL of FLIGHT

in ONE *Cool* WEEKEND

Newcastle 6 and 7 August 2011

TAKING OFF WITH
B/E AEROSPACE...

L-R: Francis Kelly, Director; Neil Cairns, Vice President and Managing Director; and Down District Council Chairman, Councillor Dermot Curran.

Message from the Sponsor

When you board a commercial airline anywhere in the world, the chances are that you'll be making yourself comfortable in a seat made by B/E Aerospace in Kilkeel. We are proud to be the world's leading manufacturer of aircraft cabin interior products for the commercial and business jet aircraft markets.

Aircraft are our business and our passion.

Our association with the Festival of Flight, here in our home county, is therefore a very natural one and we are delighted that the support we are bringing to Down District Council will help the 2011 event to be a soaraway success.

Our congratulations go to the Council for its far-sightedness in creating such a fantastic celebration of flight in the natural amphitheatre of Dundrum Bay. The stunning spectacle will not only provide entertainment for those of us lucky enough to live in this scenic region, but will also attract many thousands of visitors, bringing significant benefits to the local economy.

On behalf of everyone who will enjoy the high-flying event, I thank all those whose expertise, enthusiasm and commitment combine to make this one of Northern Ireland's major annual visitor attractions.

Neil Cairns

Vice President and Managing Director of B/E Aerospace, Kilkeel.

FESTIVAL OF FLIGHT DISPLAY

Down District Council and B/E Aerospace are delighted to bring this fantastic celebration of flight to the natural amphitheatre of Newcastle and surrounding area.

This year there is an international flavour with the Patrouille Reva display team making an appearance with us all the way from Colmar Houssan, South of Strasbourg in North East France. The Acro-eze is a variant of the 'Vari-eze' aircraft designed by ex NASA wonder designer, Burt Rutan. A welcome return by the Irish Air Corps will also feature.

The Mustang P51D 'Jumpin Jacques' is a very attractive example of the famous escort US fighter and now forms part of the Hanger 11 collection in North Weald. This majestic aircraft has never had a major rebuild and is practically as it was when built in 1944.

This magnificent Seafire was built by Westlands at Yeovil and completed on 30 April 1946 beginning her 'second' life on 3 May 2006, 60 years to the day from her original first flight. Lifting off from North Weald, and visiting Northern Ireland for the first time.

Of course the highlight of the afternoon will be the world famous Red Arrows Display Team. If you were one of the 100,000 lucky ones to watch in awe their full display last year as they soared through the skies over Newcastle, then you will know what is in store for you this year.

Come early and pick your spot to watch this spectacular event from many of the viewing opportunities along the Promenade - you're sure to get a 'birds eye' view!
